Healthcare Studio

Levi + Wong Design is a passionate group of professionals who believe the power of design can improve the quality of life in the communities where we live and work. Quality Design, Service, Innovation, Team Work and Sound Business are the foundation of our success. We are a client-centric firm led by working principals dedicated to design excellence.

As a full-service design firm comprised of architects, interior designers, landscape architects and planners, we each bring specialized skills and knowledge to the firm's collaborative design style. Our modest size--just over 30 employees--betrays the depth and breadth of the service we offer in planning, design, and project management. Our experienced working principals, collaborative style, proactive approach and interactive Client / Architect Virtual Design Process allows us to creatively and innovatively design projects that respond to client needs. Foremost to our clients we are

Rehabilitation Studio

Levi + Wong Design is recognized for our outstanding healing and patient-centered designs, which are hallmarked by thoughtful responsiveness to the needs of rehabilitation patients, families, staff, and communities.

Our design specialty is designing unique environments for every level of physical rehabilitation.

Thomas Levi, President, is the Levi + Wong Design Rehabilitation Design Studio Director and he brings his knowledge regarding healthcare architecture to each project. Ruth Neeman, with deep experience in senior environments with rehabilitation components, offers principal support to the Rehabilitation Studio.

Design CAN change a business.
Design CAN change a culture.
